

GE HealthCare

# Vivid™ E95

Ultra Edition

Your patients rely on you.  
You can rely on us.

# Today's challenges

Increasing demand, coupled with limited cardiology staff, results in additional workload challenges for the entire medical community.

 **17 million**  
people died from CVDs  
in 2019<sup>1</sup>

 **1 in 4**  
cardiologists state they  
are burned out<sup>2</sup>

 **>10%**  
increase in Ischemic Heart  
Disease (IHD) alone by 2030<sup>3</sup>

 **~20%**  
of sonographers are leaving  
the profession or taking  
premature retirement<sup>4</sup>

 **~108 million**  
annual echo exams  
performed globally<sup>5</sup>

 **x2**  
Shortage of health workers is  
**set to double**<sup>6</sup>

## Your patients rely on you. You can rely on us.

Patient care isn't just a job for you. It's a calling. A mission.

Of late, that mission has changed. Increased workloads, fewer skilled staff and increased demands on your time, resources and expertise are now the norm.

Getting the right images under this pressure is challenging.

But this isn't just a job for you and you have no intention of sacrificing quality in your practice when so much is at stake.

The Vivid E95 Ultra Edition<sup>†</sup> cardiovascular ultrasound system has been updated to meet today's challenges. To allow further improved image quality in both 2D and 4D as well as reduce tedious tasks and inter-operator variability, from the simple to the most complex cases.

Because your patients rely on you, you can rely on us.

# Your expertise. Our innovations.

Building on a history of advancements of cardiac patient care, GE HealthCare has been a true pioneer introducing breakthrough technologies, such as Color Doppler systems (1986) and 2D and AFI Speckle Tracking (2005).

Discover the latest leading innovative technologies that continue to push the technical capabilities of the Vivid Ultra Edition\* system for the benefit of you and your patient.

## Vivid E95 Ultra Edition Achieve clinical excellence.

Designed to provide you with uncompromised image quality, advanced visualization capabilities and easy measurements – while helping reduce tedious tasks and inter-observer variability.

**Upgrade now!**

## Latest innovations

**cSound ADAPT<sup>7</sup>**  
Adaptively corrects for ultrasound wave distortions caused by inhomogeneities of the speed of sound naturally present in the patient body

 **Optimizes IQ 100x per second<sup>7</sup>**

**Easy AutoEF<sup>8</sup> & Easy AFI LV**  
Strain and Ejection Fraction measurements with automatic region of interest

 **Only 1 Click**      **In 15 seconds (on average)<sup>9</sup>**

**9VT-D probe<sup>10</sup>**  
Mini 4D trans-esophageal echocardiography (TEE) probe

 **Most Compact mini 4D TEE-probe<sup>10</sup>**

### Modern ergonomics

Adjustable to each operator and each sitting position

- Articulating monitor arm
- Single-hand push for up/down and left-right adjustment

Excellent operator interface

- 23.8" HDU monitor
- Intuitive 12" LCD touch screen
- Adjustable floating keyboard
- Low noise cooling

Easy to maneuver

- Ergonomic, easy to push handle

# Your vision. Our superb images.

With the renowned superb image quality from cSound,<sup>™</sup> now Vivid Ultra Edition goes a step further with the launch of cSound ADAPT for the 4Vc-D probe.

 **New internal design!**

cSound ADAPT optimizes image quality over 100 times per second

Ultrasound waves are distorted by different patients' habitus. Inhomogeneities in body structure (made of very different speed-of-sounds, such as bone or tissue) cause **image quality degradation.**

cSound ADAPT was built and verified on **40.000** frames of channel data recordings.

 **10-15%** of echo exams result in sub-optimal images<sup>11</sup>

With the objective of improving the scanning experience on hard-to-scan patients, cSound ADAPT was developed to correct ultrasound aberrations that may degrade image quality. cSound<sup>™</sup> ADAPT tackles the challenge of ultrasound wave distortions, you will enjoy improved image contrast and resolution – optimized in real time, at over 100 times per second, in every patient.

Image captured without cSound ADAPT

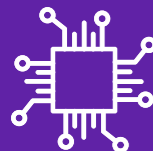

Image captured with cSound ADAPT

cSound rectifies image distortions for **enhanced image quality.**

## Color Flow – Even better image quality!

 **3.5x** more graphics processing power<sup>12</sup>

**“** The GE HealthCare 4Vc-D probe with cSound ADAPT sharpens images, increasing contrast resolution and improving diagnostic confidence. In our use we experienced that the imaging enhancements reduced non diagnostic images, improved productivity and workload by reducing scan time and improving ergonomics.”

– Lill Merete Skretteberg Lindøe  
Echo technician  
Oslo University Hospital, Norway

# Your time. Our workflow tools.

Vivid E95 Ultra Edition introduces the latest AI-based technology to help reduce tedious tasks and improve workflow efficiency.

## AI Auto Measure 2D

With the power of AI, a full set of reproducible measurements will instantly appear on the screen.

 **80%**  
Less clicks<sup>13</sup>

## Cardiac Auto Doppler with AI Auto Measure Spectrum Recognition

With the power of AI, a wide range of Doppler measurements can be completed with 2 clicks: Freeze – Measure. A Doppler trace and full set of associated measurements will instantly appear on the screen.

 **Up to 93% fewer keystrokes<sup>14</sup>**

 **35%** of cardiac sonographers miss work due to pain<sup>15</sup>

## Latest innovations

### Easy AutoEF

Our AI-based Auto ROI detection algorithm allows users to complete ejection fraction, with no manual interaction apart from initiating the tool and approving the results.

 **EF results in just 1 click**

### Easy AFI LV with View Recognition

Our AI-based global and segmental strain measurements require no manual interaction apart from initiating the tool and approving the results. Additionally, you will be able to view EF measurements.

 **EF and strain results in 15 seconds (on average)**

**“** The new Easy AFI LV speeds up strain measurements and simultaneously provides an automated LV ejection fraction measurement. Once good standard views are acquired, the GE HealthCare strain algorithm enables incredibly robust strain measurements!**”**

– Prof. Erwan Donal  
Cardiologist  
University Hospital Center, Rennes, France

# Your lead. Our support.

Vivid E95 Ultra Edition offers precise and uncomplicated tools to plan your interventions. With new visualization and navigation techniques and uncompromised image quality, the heart team can see clearly, communicate quickly, and perform procedures with great precision.

## Realistic visualization of heart structures and blood flow

HDlive

Flexilight

HD Color

## Easy communication between interventionalist and echo imager

4D Markers

View-X

## Visualization and quantification of the mitral and tricuspid valves

4D Auto MVQ

4D Auto TVQ

## Latest innovations

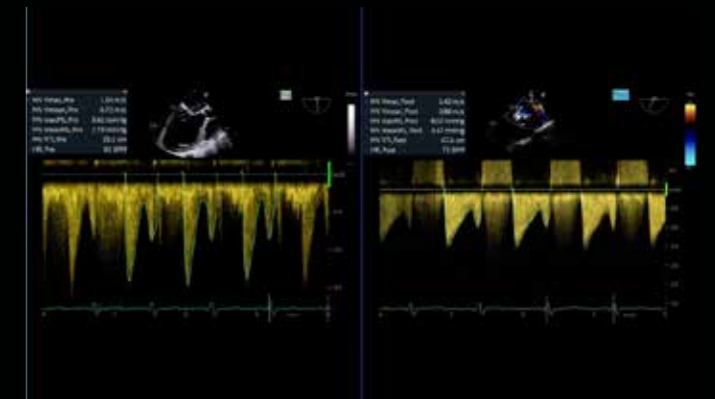

Dedicated imaging preset for improved visualization for the interventionalist

Dual Crop<sup>17</sup> to visualize structures from two directions simultaneously

FlexiSlice Extend for easier navigation during the structural heart procedure

Pre-Post Compare to make it easier to compare pre and post procedure images and measurements

CT Fusion Live<sup>18</sup> to enhance your team communication and increase your confidence during the procedures

4D ICE NUVISION<sup>19</sup> Ultrasound catheter - Provides a 90x90° field of view and seamless visualization & navigation

# Your most challenging patients. Our relentless support.

The smallest cardiac patients can pose the biggest care challenges with difficult to diagnose, severe conditions. To help clearly visualize small anatomies, Vivid E95 brings you the latest in 4D breakthrough TEE and TTE technologies.

Vivid E95 Ultra Edition, with the 12S-D, 6S-D, 6Vc-D probes, was built to address all your pediatric needs.

“The new 9VT-D probe has become an essential tool for any Tertiary Pediatric Cardiology Department.

Its revolutionary design combines high quality imaging for any pediatric patient from neonates to teenagers, both in 2D and 3D, and the most advanced and user friendly real time 4D tools that help users obtain clinically meaningful images.

The new 9VT-D probe is an essential tool to ensure an optimal result for pediatric patients during cardiac interventional procedures, both in Cath lab and EP lab, and during any complex cardiac surgery intervention as it offers perfect real time visualization of any cardiac structure.”

– Dr. Ferrán Rosés i Noguera  
Head of Pediatric Cardiology  
Vall d’Hebron Hospital - Barcelona, Spain

⇒ 10%

of pediatric echo diagnostic are driven by misleading anatomy or physiology<sup>20</sup>

## Introducing, 9VT-D probe!

4D TEE probe designed for a broad range of pediatric and interventional procedures and for patients as small as 5 kg.

- All 2D, 4D, Color and Doppler modes
- Cardiac, Pediatric and Coronary applications
- Scan depths down to 18 cm

↙ **Most Compact**  
↗ mini 4D TEE-probe

1<sup>st</sup>  
4D TEE probe designed for small children<sup>10</sup>

# EchoPAC Connect†

Connect† from anywhere<sup>21</sup> at any time, to any console.<sup>22</sup>

## Connect from anywhere<sup>21</sup>

EchoPAC Connect† provides you with the flexibility you need to accommodate to the unique way you work, whether your department is equipped with GE HealthCare ViewPoint™ 6 server, Centricity™ PACS, or any 3<sup>rd</sup> party PACS vendor.<sup>22</sup> Perform your measurements & diagnosis – using both 2D & 3D images – on site or remotely, with the same excellent quality as on your acquisition consoles.

## Multi-vendor<sup>23</sup>

With EchoPAC Connect†, you can enjoy a wide spectrum of 2D & 3D Vivid applications, from standard to most advanced measurements, regardless of which console was used to acquire your patients' images.

Enjoy the proven robustness of AFI LV, or exceptional GE HealthCare 4D measurement applications like TVQ (Tricuspid Valve Quantification) usable on all images acquired in your department, from both, Vivid systems and non-GE HealthCare consoles.<sup>23</sup>

## The power of EchoPAC

EchoPAC Connect† benefits from the latest AI-based technology introduced on Vivid Ultra Edition†, aimed to reduce tedious tasks and improve workflow efficiency.

Obtain measurements in 1 simple click with Easy AutoEF and Easy AFI LV. **Measurements can be obtained in less than 15 seconds.<sup>9</sup>**

Reduce tedious tasks of most common exams with AI Auto Measure Spectrum Recognition and AI Auto Measure 2D, and minimize the number of clicks needed to acquire standard measurements.<sup>13</sup>

## Seamless workflow integration

EchoPAC Connect† provides you with a seamless workflow experience thanks to a centralized server installation and DICOM® server, which automatically transfers data from all acquisition system.<sup>22</sup> whatever the brand, directly to your EchoPAC Connect†.

So, whether your department is equipped with a GE HealthCare ViewPoint server, Centricity PACS or any 3<sup>rd</sup> party PACS,<sup>22</sup> the seamless integration of EchoPAC Connect† will simplify your everyday workflow. Dongle-free. Peace of mind. Your EchoPAC Connect† is available at any time, from any computer, from anywhere, without the need to use dongle.

*“The new Easy AFI LV speeds up strain measurements and simultaneously provides an automated LV ejection fraction measurement. Once good standard views are acquired, the strain algorithm enables incredibly robust measurements!”*

– Prof. Erwan Donal  
Cardiologist  
University Hospital Center, Rennes, France

*“I am amazed by the measurements you can perform on EchoPAC after the patient has left!”*

– Dr. Lamin E.S. Jaiteh  
Consultant Cardiologist & Lecturer in Cardiology Department of Internal Medicine  
Edward Francis Small Teaching Hospital/School of Medicine & Allied Health Sciences,  
University of the Gambia

† EchoPAC Connect is a marketing name for EchoPAC Plug-in (v206) combined with a GE HealthCare Host. It is possible for several EchoPAC Plug-in users to open the same patient records. However, only the first user will have access to all the features of EchoPAC Plug-in. Other users will have read-only access to the patient records. This behaviour may change depending on the host in which EchoPAC Plug-in is integrated.

# Your skills. Our support.

In the core echo lab and even beyond cardiology, smart applications support your know-how. The Ultra Edition applications highlighted in **bold** are referent to our latest release.

## About GE HealthCare

GE HealthCare is a leading global medical technology, pharmaceutical diagnostics, and digital solutions innovator, dedicated to providing integrated solutions, services, and data analytics to make hospitals more efficient, clinicians more effective, therapies more precise, and patients healthier and happier. Serving patients and providers for more than 100 years, GE HealthCare is advancing personalized, connected, and compassionate care, while simplifying the patient's journey across the care pathway. Together our Imaging, Ultrasound, Patient Care Solutions, and Pharmaceutical Diagnostics businesses help improve patient care from prevention and screening, to diagnosis, treatment, therapy, and monitoring. We are an \$18 billion business with 51,000 employees working to create a world where healthcare has no limits.
